To Whom It May Concern

I have known and worked with Dr. Margaret Carter over an eighteen year period as teacher, Assistant Principal and Principal.

Dr Margaret has been a mentor, she has been involved with professional development and planning activities with staff and support programs with parents. Teachers, parents and children have found Dr Margaret is able to listen, guide a direction and map out a plan for the future. All have commented on Dr Margaret's commitment and energy.

As Principal I have discussed many professional development and workshop briefs with Margaret and she has been able to support this brief and then present information in a manner where all in attendance were able to have their needs meet.

Dr Margaret specialises in behaviour change, but our community have discovered her skills much broader than this.

The professional activities offered by Margaret have made a difference in the lives of our children, staff and parents. I would be prepared to discuss this recommendation further if needed.

Yours sincerely

Brian Hickey
