

Reference for Dr Margaret Carter

Dr Margaret Carter was employed by Brisbane Catholic Education to implement a major training initiative for support teachers. This period of training spanned 2½ years.

During this time Margaret was responsible for planning and preparation of the training concepts and modules as well as the delivery of large group, small group and individual training and coaching sessions.

The outcomes of this program have been outstanding with significant change in role outcomes for the participants, benefits to schools/ colleges through influence on leadership and management practices and increased morale of the employees due to the total renewal experience.

I have no hesitation in recommending Dr Carter as a very effective professional in all aspects of training and development.

A handwritten signature in black ink, appearing to read "Rita Cleveland". The signature is fluid and cursive, with a long horizontal stroke at the end.

Rita Cleveland
Senior Education Officer
Learning Support and Therapy Services
Brisbane Catholic Education
